

ERRATUM

Erratum to Genetic and molecular changes in ovarian cancer

Robert L Hollis, Charlie Gourley

Edinburgh Cancer Research UK Centre, MRC Institute of Genetics and Molecular Medicine, University of Edinburgh, Edinburgh, EH4 2XR, UK

In the published article¹, some errors appeared on page 238, **Figure 1**, and reference list. The editors and the authors apologize for the errors and for any confusion they may have caused. On page 238, the sentence of "affecting 20% and 17.5% of cases" should be changed to "and that inactivation of these genes occurs in 17.5% and 20% of cases".

The correct **Figure 1** should be as following.

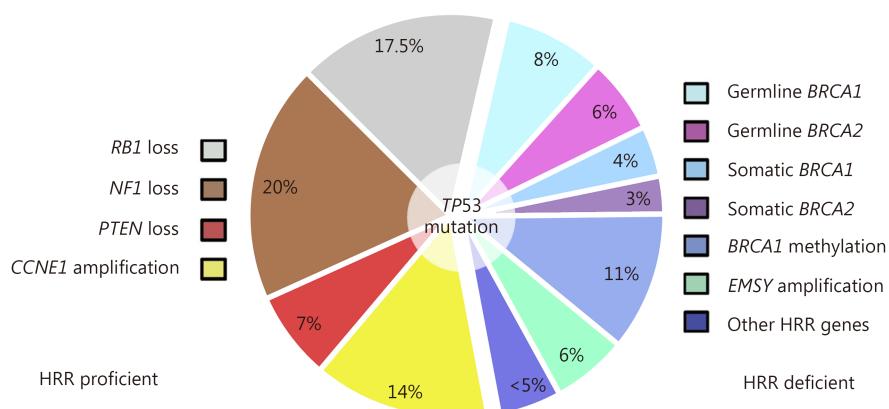

Figure 1 Common molecular events identified in HGS OC, including genetic and epigenetic defects in HRR pathway components (right).

The correct reference list should be as following.
